

## **Big O(mega)G's Scrum Log**

Product Owner: Mohamad Soliman

Scrum Leader: Wesley Chok

Other Member: Daniel Olaes

Other Member: Matt Jang

Friday: 3/27/2020

Attendance: All attended

Location: Call over discord

Meeting time: 8pm

Highlights: We all discussed the assumptions and approaches for the project by presenting our past project to each other and thoroughly reviewing the rubric. Furthermore, we decided that we would use trello as our main source for writing our agile stories. At the end of the meeting, we tasked each other to complete the coding style and team rules.

Monday: 3/30/2020

Attendance: All attended

Location: Call over zoom/discord

Meeting time: 7pm

Highlights: The team completed planning poker for sprint 1 (We utilized the discord chat to call out the planning poker ratings). After this, we presented our past project again to get a better idea of how to construct our ui's. We were each tasked to complete our assigned agile stories at the end of the meeting.

Wednesday: 4/1/2020

Attendance: All attended

Location: Call over zoom

Meeting time: 3:45pm

Highlights: During this time, we decided the partners for assignment 10. Once we figured out who was partnering with who, we split up and immediately started working on the assignment.

Monday: 4/6/2020

Attendance: All attended

Location: Over zoom/discord

Meeting time: 3:45pm

Highlights: The team completed all of the displays for the project. After this, we planned out what stories we will present for sprint 1.

Monday: 4/13/2020

Attendance: All attended

Location: Over zoom

Highlights: **Sprint 1 END** - Sprint 1 came to a conclusion, we presented our display functions and admin stories to the professor. From the display, stories 1-13 are completed and from the planning stories, the majority of 9 are completed. After the presentation was over, we began to plan out what we could complete next for sprint 2 (Completed stories 1-13 from display, baseline and majority of story 9 and 11).

Wednesday: 4/15/2020

Attendance: All attended

Location: Over zoom

Meeting time: 3:45pm

Highlights: Decided what stories we will present for sprint 2. From there, we assigned each member a story to complete for sprint 2. We also made strides on completing the test plan for the lab.

Monday: 4/20/2020

Attendance: All attended

Location: Over zoom

Meeting time: 3:45pm

Highlights: Began working on developing the mst, bfs and dfs algorithms for sprint 2. We discussed more in depth about how we will present them in our ui. After this, we worked individually to complete our assigned stories.

Wednesday: 4/22/2020

Attendance: All attended

Location: Over zoom

Meeting time: 3:45pm

Highlights: Completed the mst algorithm for sprint 2. We decided to output it via application output for testing purposes. After this, we made strides on developing the ui for our searching algorithms and worked on the bfs and dfs.

Thursday: 4/23/2020

Attendance: Mohammad was in the ER and could not attend

Location: Over discord/zoom

Meeting time: 5:00pm

Highlights: Completed the bfs algorithm for sprint 2. Once again, we decided to output it via application output for testing purposes. After this, we continued to work on the dfs algorithm.

Friday: 4/26/2020

Attendance: All attended

Location: Over discord/zoom

Meeting time: 5:00pm

Highlights: Reviewed our work we will present for sprint 2. We encountered some database problems and immediately debugged them.

Monday: 4/27/2020

Attendance: All attended

Location: Over zoom

Meeting time: 3:45pm

Highlights: Our sprint 2 review got postponed to Wednesday due to not completing our stories. After this, each member was tasked to complete their agile story.

Wednesday: 4/29/2020

Attendance: All attended

Location: Over zoom

Meeting time: 3:45pm

Highlights: **Sprint 2 END** - Sprint 2 came to a conclusion, we presented our mst, bfs and dfs algorithms to the professor. We also presented our completed admin page as well. From here, the searching algorithms and admin requirements are completed (Completed stories 5-7 and 9).

Monday: 5/4/2020

Attendance: All attended

Location: Over zoom

Meeting time: 3:45pm

Highlights: Worked on the remaining stories for sprint 3 such as dijkstra's, UML's and doxygen. After this, we worked individually to complete these stories.

Friday: 5/8/2020

Attendance: All attended

Location: Over zoom

Meeting time: 7:00pm

Highlights: Completed dijkstra's, souvenirs and UML diagrams. From here, we are complete with the project code wise.

Saturday: 5/9/2020

Attendance: All attended

Location: Over zoom

Meeting time: 2:00pm

Highlights: Desked checked all of the algorithms and tweaked the souvenir ui page. Also double checked if we had all the requirements for the project

Sunday: 5/10/2020

Attendance: All attended

Location: Over zoom

Meeting time: 2:00pm

Highlights: Error checked the entire project in preparation for the presentation. The entirety of the project is complete at this point (Completed stories 1-4 and 8).
