<u>Big O(mega) G's: Team Rules</u>

1. Make sure to attend group meeting on time. If there a conflict with the time of the meeting be sure to notify the rest of the group as soon as possible in order to find a more convenient time.

2. During meetings, be productive and respectful to your fellow group members (give your full attention to the speaker and give constructive suggestions).

3. Be communicative. Actively participate in the Discord server chat and group text conversation to be up to data with recent updates to the project.

4. Make sure to complete your assigned tasks on time and thoroughly test in order to make merging and later testing run efficiently.

5. If there are any internal problems in the group, keep it as constructive as possible or notify the professor if necessary.
